

EMPLOYMENT PROCESS

(Please read)

Please review all of the job listings in this guide before applying for a position at the State Fair of West Virginia.

If you are hired for a position, you will be expected to perform the tasks as described for that job.

We occasionally have part time and full time staff positions available. If you are interested in being considered, you will want to mark the appropriate box on the employment application.

All applications will be reviewed and given to the supervisor of the position listed as your first choice on the application.

The supervisor will review your application and contact you by phone for an interview.

You will either be selected for the position or your application will be referred to your second choice. Most jobs for Fair Week Only positions are interviewed in July.

Interviewing does not guarantee you a position at the Fair. You will be notified if you are hired for a specific position.

If selected, the offer is contingent upon your successful completion of the entire hiring process. You will be contacted to complete the required paperwork and scheduled for job orientation.

If you are selected for employment you will be required to furnish documents that establish identity and eligibility to work in the United States, in compliance with the Immigration and Naturalization Act of 1986.

All positions pay at least minimum wage, and many are higher, depending on skill level required and length of employment.
