IAFE Code of Ethics

The State Fair of West Virginia has also adopted the International Association of Fairs and Expositions (IAFE) National Code of Show Ring Ethics, and its accompanying “Exhibitor Entry Statement” which is included on the livestock entry form and which livestock exhibitors are required to sign.

IAFE (International Association of Fairs and Expositions) Code of Show Ring Ethics

Exhibitors of animals at livestock shows shall at all times deport themselves with honesty and good sportsmanship. Their conduct in this competitive environment shall always reflect the highest standards of honor and dignity to promote the advancement of agriculture education. This code applies to junior, as well as open class exhibitors who compete in the structured classes of competition. This code applies to all livestock offered in any event at a livestock show. In addition to the “IAFE Code of Show Ring Ethics,” fairs and livestock shows may have rules and regulations which they imposed on the local, county, state, and provincial and national levels. All youth leaders working with junior exhibitors are under an affirmative responsibility to do more than avoid improper conduct or questionable acts. Their moral values must be so certain and positive that those younger and more pliable will be influenced by their fine example. Owners, exhibitors, fitters, trainers and absolutely responsible persons who violate the code of ethics will forfeit premiums, awards and auction proceeds and shall be prohibited from future exhibition in accordance with the rules adopted by the respective fairs and livestock shows. Exhibitors who violate this code of ethics demean the integrity of all livestock exhibitors and should be prohibited from competition at all livestock shows in the United States and Canada.

The following is a list of guidelines for all exhibitors and all livestock in competitive events:

1. All exhibitors must present, upon request of fair and livestock show officials, proof of ownership, length of ownership and age of all animals entered. Misrepresentation of ownership, age, or any facts relating thereto is prohibited.
2. Owners, exhibitors, fitters, trainers, or absolutely responsible persons shall provide animal health certificates from licensed veterinarians upon request by fair or livestock show officials.
3. Junior exhibitors are expected to care for and groom their animals while at fairs or livestock shows.
4. Animals shall be presented to show events where they will enter the food chain free of violate drugs residues. The act of entering an animal in a livestock show is the giving of consent by the owner, exhibitor, fitter, trainer and/or absolutely responsible person for show management to obtain any specimens of urine, saliva, blood, or other substances from the animal to be used in testing. Animals not entered in an event which culminates with the animal entering the food chain shall not be administered drugs other than in accordance with applicable federal, state and provincial statutes, regulations and rules.

Livestock shall not be exhibited if the drugs administered in accordance with federal, state and provincial statutes, regulations and rules affect the animal's performance or appearance at the event. If the laboratory report on the analysis of saliva, urine, blood, or other sample taken from livestock indicates the presence of forbidden drugs or medication, this shall be the prima facie evidence such substance has been administered to the animal internally or externally. It is presumed that the sample of urine, saliva, blood, or other substance tested by the laboratory to which it is sent is the one taken from the animal in question, its integrity is preserved and all procedures of said collection and preservation, transfer to the laboratory and analysis of the sample are correct and accurate and the report received from the laboratory pertains to the sample taken from the animal in question and correctly reflects the condition of the animal at the time the sample was taken with the burden on the owner, exhibitor, fitter, trainer, or absolutely responsible person to prove otherwise. At any time after an animal arrives on the fair or livestock show premises, all treatments involving the use of drugs and/or medications from the sole purpose of protecting the health of the animal shall be administered by a licensed veterinarian.

5. Any surgical procedure or injection of any foreign substance or drug or the external application of any substance (irritant, counterirritant, or similar substance) which could affect the animal's performance or alter its natural contour, conformation or appearance, except external applications of substances to the hoofs or horns of animals which affect appearance only and except for surgical procedures performed by a duly licensed veterinarian for the sole purpose of protecting the health of the animal, is prohibited.
6. The use of showing and/or handling practices or devices such as striking animals to cause swelling, using electric contrivance, or other similar practices are not acceptable and are prohibited.
7. Direct criticism or interference with the judge, fair or livestock show management, or other exhibitors, breed representatives or show officials before, during or after the competitive event is prohibited. In the furtherance of the official duty, all judges, fair and livestock show management or other show officials shall be treated with courtesy, cooperation and respect and no person shall direct abusive or threatening conduct toward them.
8. No owner, exhibitor, fitter, trainer or absolutely responsible person shall conspire with another person or persons to intentionally violate this code of ethics or knowingly contribute or cooperate with another person or persons either by affirmative action or inaction to violate this code of ethics. Violation of this rule shall subject such individual to disciplinary action.
9. The application of this code of ethic provides for absolute responsibility for an animal's condition by an owner, exhibitor, fitter, trainer or participant whether or not he or she was actually instrumental in or had actual knowledge if the treatment of the animal in contravention of this code of ethics.

10. The act of entering an animal is the giving of consent by the owner, exhibitor, fitter, trainer or absolutely responsible person to have disciplinary action taken by the fair or livestock show for violation of this Code of Show Ring Ethics and any other rules of competition of the fair or livestock show without recourse against the fair or livestock show. The act of entering an animal is the giving of consent that any proceedings or disciplinary action taken by the fair or livestock show may be published with the name of the violator or violators in any publication or the International Association of Fairs and Expositions, including Fairs and Expositions and any special notices to members.
11. The act of entering an animal in a fair or livestock show is the giving of verification by the owner, exhibitor, fitter, trainer or absolutely responsible person that he or she has read the IAFE Code of Show Ring Ethics and understands the consequences of and penalties provided for actions prohibited by the code. It is further a consent than any action which contravenes these rules and is also in violation of federal, state or provincial statutes, regulations or rules may be released to appropriate law enforcement authorities with jurisdiction over such infractions.

State Fair of West Virginia
Endowment Fund
YOUTH. EDUCATION. AGRICULTURE

**State Fair of West Virginia
Endowment Fund**
“YOUTH. EDUCATION. AGRICULTURE”

The State Fair of West Virginia invites you to support its endowment fund, to ensure long-term funding for three key areas of the fair:

Scholarships: The State Fair of West Virginia Scholarship program rewards outstanding youth who have exhibited livestock or non-livestock projects at a previous State Fair. Since 1992, the State Fair and many business partners have provided over \$600,000 in scholarships to youth participants.

Youth Educational Enrichment Programs: Your gift will enable the State Fair to provide enhanced learning opportunities for West Virginia youth. Enrichment programs occur not only during the week of the Fair, but throughout the year via school-based partnerships in education programs. These programs are designed to improve the appreciation for and understanding of agriculture through hands-on classroom activities.

Agricultural Premiums & Competitive Exhibit Premiums: Through the years, hundreds of West Virginians have participated in State Fair competitions. The thrill of victory and the sorrow of defeat are important life lessons. It is imperative that tomorrow's youth have the same opportunities. For some, the defining moment was winning their first blue ribbon and for others it is spending their first prize winnings.

- The American Angus Association®, 3201 Frederick Avenue, St. Joseph, Mo., will participate in premiums offered for open class Angus breeding cattle classes according to the premium schedule based on the number of head shown. The premium assistance provided by the American Angus Association for participation in this show is in addition to the premiums offered by the show itself. The premium assistance should not be used to offset show expense and shall be included in the premium payments distributed by the show to the exhibitors.
- A minimum of 50 head must be shown in the open class division to receive American Angus Association premium participation for the following year. Premiums from the Association are paid only to registered Angus cattle and only if the registration number is a part of the show report provided to the Association. Therefore, all cattle should be registered at the time of entry to make certain they receive the Association's portion of premiums. The Association does not pay on championship or any group classes, (i.e. get-of-sire, junior get-of-sire or breeder six-head).
- Exhibitors must have the original registration certificate issued by the American Angus Association available for inspection at the show for each animal or another current proof of ownership issued by the American Angus Association pedigree look up. Any animal, upon check-in, which does not have a legible permanent identification mark (ear tattoo marks, freeze-branded marks or hot-branded marks) corresponding to the permanent identification mark on the registration certificate, is ineligible to show. Once disqualified due to an incorrect or illegible permanent identification mark, animals cannot be re-identified (tattooed/branded) and rechecked at the show.
- Any female shown with a calf at side: the calf must be the cow's most recent natural calf, and the calf must be registered by show day and have proof of registration at check in.
- Only one person at a time shall lead an animal into the show ring.

Exhibitors who participate in shows that accept premium monies contributed by the American Angus Association are subject to the Association Rules as found in the Breeders Reference Guide of the Association. These rules are found in Part 2; Association Rules. The rules relating directly with the exhibition of Angus cattle are Part 2: Association Rules; Rule 800 Series; including Rule 800 - 810. These rules can be found at www.angus.org.

- Altering the conformation and/or appearance of an animal for exhibition is prohibited. This includes the covering of white skin, false tail heads (or use of any false hair), with the exception of false tail switches. The use of graphite, powders, hemp or other similar substances used externally are also prohibited. Other prohibited products include those used internally such as steroids, illegal or unlicensed pharmaceuticals or artificial filling. Any animal found to be in violation will be barred from showing.
- At any show for which the American Angus Association appropriates funds toward the payment of premiums, no exhibitors, individuals assisting exhibitors or member owners at such show shall be allowed to use any coloring agents, on any animal exhibited. The Association may adopt and implement various tests designed to monitor this prohibition, including but not limited to a “white towel” or “white glove” test. No aerosol cans or other pressurized containers will be allowed in designated line up areas. All animals exhibited are subject to DNA marker or blood type test to verify accuracy of parentage as covered under the Association Rules and for other testing as required by the individual show.
- Authorized representatives of the Association have the authority to enforce the rules set forth herein as well as in the Association Rules, including the barring of a registered animal from a livestock show at which it is to be shown, if there are reasonable grounds to believe a violation has occurred.

All females 20 months old at the time of the show need to have a 60 day pregnancy verification signed by an accredited, non-owner veterinarian at the time the female is processed for the show and are subject to a blood test to prove pregnancy. Exhibitors may be asked to present said verification upon request of the Show Officials or ASA representatives. If verification cannot be produced, the female may be allowed to participate if the exhibitor can produce a qualified veterinarian to examine the female at the show site, and verify a 60 day pregnancy. Any infractions against this rule will lead to disqualification of that animal for that specific show.

The State Fair of West Virginia and WVU Extension is pleased to recognize the 2024 Junior and Senior Premier Exhibitors in Market Beef, Purebred Beef, Dairy, Market Hogs, Purebred Swine, Market Goats, Market Lambs and Purebred Sheep. Premier Exhibitor awards are based on results from the skillathon, showmanship classes and exhibit animals in the respective category.

As in previous years, 2024 State Fair exhibitors in Dept F – Jr Show will have the opportunity to participate in a Livestock Skillathon. To streamline our competition and give WV exhibitors an experience similar to what they might encounter at a national skillathon, exhibitors will complete the skillathon only once, and its content will be multi-species. The livestock skillathon will be conducted virtually. Participants in the skillathon will receive a username and password prior to the beginning of the State Fair. After logging in, participants will answer a series of questions that will test their knowledge regarding sheep, goats, beef, dairy and swine. The tested topics will be ones applicable to all the species exhibited. The first recorded score will be used for all species exhibited by a participant.

Rules:

1. Age Group Requirements:
 - a. **Junior** - 9 years old or in the third grade during the current 4-H year (Oct. 1, 2023 - Sept. 30, 2024) and may not have reached their 14th birthday on or before Jan. 1, 2024.
 - b. **Senior** - at least 14 years old on or before Jan. 1, 2024, and may not have reached their 21st birthday on or before Jan. 1, 2023.
2. **The 2023 Junior winners in the skillathon competition will participate in the Senior Contest. The 2023 Senior winners will sit out for one (1) year and will not be eligible for the competition in 2024.**

Scoring - Premier Exhibitor scores will be determined on the following scale:

*The following topics may or may not be covered in the 2024 Multi-species Skillathon:
